Sleep Solution[®] Convertible

No two bodies are the same.

Meet the Convertible – one mattress, two different feels.

- Our different body heights, shapes, weights, wear and tear health issues all demand a personalised approach to finding the right Sleep Solution[®].
- Rarely does one mattress 'feel' suit the needs of two different height and weight people.
- The modular design of the Sleep Solution[®] Convertible mattress allows each person to choose their own comfort level without compromise.

Example:

Bruce & Anne

With the Latitude Mattress, each person was able to **tailor their side** of the bed to accommodate their own comfort preference.

Bruce (50)

lower back injury,
required a firm
mattress to assist
recovery.

Anne (52)

prefers a softer,
more forgiving feel,
firmer surfaces
cause hip pain.

Result:

Better sleep, reduced pain, no compromise.
