2 Seater	1000 mm	1290mm	1810 mm
3 Seater	1000 mm	900mm	900 mm

ACTIONS

Single Motor

(Wall-saver, Lift Assist)

The single motor wall saver operation of the Hudson and Barwon allows the chair to move forward while the backrest reclines. This Oscar feature reduces the space that the chair occupies in the room because the reclined backrest does not hit the wall. The lift, recline and footrest functions operate together from a single motor.

Dual Motor

(Independent Recline)

The dual motor option lets the user recline the back without effecting the footrest, allowing a greater range of of comfortable positions. This option also increases the range of motion to get a completely lay-flat back.
